Vehicle maintenance made easy

Creating innovative ways to increase your profitability. Adding value and simplicity to your business operations. It's as important to us as it is to you.

That's why we designed ServicePoint – a new way to manage the maintenance of your privately maintained vehicles and keep your business moving.

Available at thousands of franchised and independent garages nationwide, including tyre and glass specialists, you'll never be far away from significant savings, all pre-negotiated on your behalf.

Simplify vehicle maintenance bookings, authorisation and invoice processing through a cloud platform that can be used standalone or complementary to a fleet management

solution. Whether you have ten(s) or hundreds of vehicles, eliminate telephone tag, paperwork and whiteboards with a simple to use solution that gives you control and visibility.

Achieve greater transparency in your vehicle maintenance cost management through one supplier who will provide you a consolidated invoice for all your ServicePoint transactions electronically; helping you to simplify your administration.

ServicePoint is available without any upfront investment or commitment, so start gaining the benefits today!

Real life savings

Reducing any cost associated with company vehicles will increase the profitability of your business.

To help you achieve this, we've negotiated some exclusive rates on your behalf with an average saving of 30%.

30% average saving

ServicePoint ensures you're getting maximum discount for minimal effort at any of the thousands of garages on our network.

Take a look at a few examples of customers who have already benefited from ServicePoint.

Vehicle Type	Work	Their Invoice	ServicePoint Saving	Percentage Saving
BMW X1	Replace differential oil seal and brake fluid	£335.79	£162.04	48%
Volvo V60	36k service and rear brake pads	£450.60	£202.04	45%
Landrover Freelander	Replace differential oil unit	£912.00	£260.50	29%
Ford Transit	30k service	£223.00	£63.27	28%
Nissan Qashqai	Minor service	£132.50	£29.75	22%
Mazda CX-5	30k service	£111.01	£28.20	25%
Audi Quattro	Alternator and alternator belt	£482.53	£105.29	22%

Your cloud platform

A secure cloud platform, with no downloads required or costly system updates to install, that you can access easily from any location.

ServicePoint eases the burden of managing the maintenance of your privately maintained business vehicles. It removes the manual inefficiencies associated with vehicle maintenance booking, job authorisation and invoice processing, saving you time and money.

Simply select a vehicle, select the work type and then choose a garage.

Using the online platform you can:

- ✓ Book vehicles in for service, maintenance, repair, MOT, tyre or glass work
- ✓ Find a garage via the online directory using different search criteria
- ✓ Approve work with the garage directly
- ✓ Manage invoices
- ✓ Record/view service history in a central repository
- ✓ Add MOT, service, tax and insurance reminders

Optionally you and/or your drivers can arrange a booking by calling the ServicePoint **dedicated booking hotline on 0808 250 3896**

Full control and visibility

Fleet management software (FMS)

ServicePoint is complementary to fleet management solutions in that it picks up where they stop. FMS typically enables vehicle reminders, such as an annual service, to be recorded but the onward booking, authorisation and invoicing is done outside of the system. ServicePoint provides the 'last mile' in vehicle maintenance for an organisation's core FMS.

With ServicePoint you can:

- ✓ Manage all your vehicle maintenance in one place
- ✓ Eliminate lost paperwork and missed service/MOT events
- ✓ Save money on your vehicle maintenance costs
- ✓ Regain time through more efficient processes
- ✓ Have confidence in your vehicle maintenance costs
- ✓ Improve communication and audit trails with garages
- ✓ Access a network of garages throughout the UK when and if needed

Cost clarity and centralised billing

The process of obtaining job quotes, pre-authorising work and reconciling invoices can be time consuming and complicated.

With ServicePoint, garages create job costings that are validated with an integrated rules engine, incorporating manufacturer data, meaning that you can have confidence in associated costs.

What's more, as you authorise jobs in advance, the corresponding invoice only ever reflects what was approved, enabling accurate and quicker reconciliation. Centralised billing is supported through a HMRC compliant single vehicle maintenance invoice, enabling you to manage and pay a single provider by Direct Debit. You pay Allstar and we pay the garage.

Paying for your vehicle maintenance through ServicePoint means you can eliminate the time and cost-intensive exercise of drivers having to pay and reclaim through expense forms; a win-win for you and the claimant!

Simplify your vehicle maintenance today

Available with no commitment or obligation, ServicePoint significantly improves the way you manage your business vehicle maintenance booking, authorising and invoicing.

Our dedicated team will help you to discover the huge benefits available with ServicePoint, ensuring a seamless integration into your business.
