

IntelliLink Spend Management

IntelliLink Spend Management in partnership with Allstar is the expense management solution that transforms expense data into business intelligence whilst reducing admin and improving efficiency.

The cloud based solution allows employees to view, code, submit and approve all card transactions in one place, streamlining the end-to-end process. Whilst employees enjoy greater efficiency and reduced admin, finance teams benefit from a suite of flexible reporting and analytical tools, transforming card data into real business intelligence that supports better informed decision-making.

How it works

Let IntelliLink help manage your business expenses by...

Transforming card data into business intelligence

- ✓ Over 30 standard reports including supplier, employee and VAT templates
- ✓ Various filters allow you to tailor reports so you can pinpoint key data
- ✓ Rich data supports preparation of financial forecasts and budgets
- ✓ Easily export and upload data into external accounting software
- ✓ The visual display of data available helps identify money saving opportunities

Streamlining the end-to-end expenses process

- ✓ Cloud based platform provides stakeholders with a consolidated view of expense data
- ✓ Remove manual processes and eliminate the paper trail
- ✓ 24/7, mobile and web access allows stakeholders to manage expenses at a time and place suitable for them
- ✓ Cardholders can upload photos of receipts to a mobile app on the move
- ✓ Managers have full visibility of cardholder transactions and supporting detail

All delivered through a fresh, modern user-interface
